HYPA PLAY14

Build, create and play with Minecraft, included free with Hypa Play14. Explore caves and caverns, discover abandoned mines and build to your heart's desire limited by little more than your imagination. This lean, mean, creeper-green-machine also includes a free sticker pack, so you can choose your favourites and make it your own.

ONLINE, IN-GAME

Get online and in-game with Minecraft on the move – Play14's lightweight chassis and 14" HD screen make for a great combination of portability and performance. Complete with Windows 10, Play14 doubles as a versatile notebook so you can balance work and play for an all-in-one experience.
